JOÃO BARROSO

FRONT-END DEVELOPER

PROFILE

6+ years of experience as a Front-end developer with a Master's Degree in Computer Science. I am self-motivated, dedicated to my work, adaptable to any challenge, responsible, and always in good humour. Most of my professional experience is working with React.js while on projects with teams which had between 3-20 members.

EXPERIENCE

Front-end Developer | Boligmappa

May 2022 - Present

- **Languages and Technologies:** React.js, Next.js, TypeScript, CSS/Linaria, Tailwind CSS, Jest for Unit Testing, Playwright, JIRA, Storybook, Kanban process management;
- Created a modern leading front-end solution for craftsmen in Norway. Helped developing an internal component library using storybooks.

Front-end Developer | iCapital

Aug 2021 - May 2022

- **Languages and Technologies:** React.js, JavaScript, CSS, Jest for Unit Testing, Kanban process management;
- Helped develop solutions for an investment marketplace.

Front-end Developer | Novabase

May 2019 - Aug 2021

- **Languages and Technologies:** React.js, JavaScript, TypeScript, CSS/SASS/SCSS, Ant Design, Azure DevOps;
- Projects in several business areas such as telecommunications, banking and procurement. Helped reshape a monolithic procurement application into a modern solution.
